

CALL FOR PAPERS

ICFPBM 2020
Mar 05-06, 2020
Barcelona, Spain

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICFPBM 2020 : International Conference on Food Preservation Basics and Methods is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Food Preservation Basics and Methods. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

- | | |
|---------------------------------|---------------------------------|
| Food preservation | Visual deterioration |
| Food preservation methods | Enzymatic browning reaction |
| Food preservation techniques | Curing |
| Traditional techniques | Fermentation |
| Microbial assessment techniques | Industrial/modern techniques |
| Food preservation technologies | Pasteurization |
| Food quality | Vacuum packing |
| Food protection | Artificial food additives |
| Food processing | Irradiation |
| Canning basics | Pulsed electric field |
| Bacteria, fungi and other | electroporation |
| micro-organisms | Modified atmosphere |
| Oxidation of fats | Nonthermal plasma |
| Rancidity | High-pressure food preservation |
