

CALL FOR PAPERS

ICACD 2020
Mar 19-20, 2020
Dubai, UAE

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICACD 2020 : International Conference on Atmosphere and Climate Dynamics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Atmosphere and Climate Dynamics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Climate dynamics

Computer models of the atmosphere and ocean

Dynamics and physics of observed ocean, troposphere, stratosphere and mesosphere

Large-scale atmospheric circulation

Ocean circulation and climate variability

Regular events, cycles and extreme events

Structure and behavior of the atmosphere, oceans, cryosphere, biomass and land surface

Dynamics of global climate

Physical and biogeochemical processes

Climate and climate change

Paleoclimatic, diagnostic, analytical and numerical modeling
