

# CALL FOR PAPERS

**ICACSSP 2020**  
**Mar 19-20, 2020**  
**Dubai, UAE**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICACSSP 2020 : International Conference on Analog Circuits, Systems and Signal Processing is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Analog Circuits, Systems and Signal Processing. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Analog circuits, systems and signal processing  
Adaptive signal processing  
Analog integrated circuits  
Analog, digital, radio frequency, and microwave electronic circuits and systems  
Computed imaging systems  
Computer aided design of integrated circuits

Device modeling  
Digital integrated circuits  
Image, video, and multimedia processing and compression  
Integrated circuit reliability  
Machine learning and pattern recognition
