

# CALL FOR PAPERS

**ICAGESP 2020**  
**Mar 19-20, 2020**  
**Dubai, UAE**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAGESP 2020 : International Conference on Atmospheric Greenhouse Effect, Science and Policy is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Atmospheric Greenhouse Effect, Science and Policy. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Atmospheric greenhouse effect  
History  
Mechanism  
Greenhouse gases  
Atmospheric greenhouse gas concentrations  
Role in climate change  
Real greenhouses  
Bodies other than earth  
Radiatively active gases  
Atmosphere's temperature  
Global warming  
Human activities

Earth's natural greenhouse effect  
Science and policy  
Scientific issues surrounding the greenhouse effect  
Temperature scales  
Forms of heat transfer  
Electromagnetic spectrum  
Planck law  
Stefan-boltzmann law  
Inverse square law  
Reflectivity or albedo  
Solar (shortwave) and terrestrial (longwave)  
Radiation
