

CALL FOR PAPERS

ICAIEEE 2020
Mar 19-20, 2020
Dubai, UAE

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAIEEE 2020 : International Conference on Advances Industrial Electrochemistry and Electrochemical Engineering is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advances Industrial Electrochemistry and Electrochemical Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Industrial electrochemistry
Industrial electrochemical processes
Electrochemical engineering
Chlor-alkali industry
Extraction, refining and production of metal
Inorganic electrolytic processes
Organic electro synthesis
Water purification, effluent treatment and recycling of industrial process streams
Metal finishing
Metals and materials processing
Corrosion and its control

Batteries and fuel cells
Electrochemical sensors and monitoring techniques
Industrial photo chemistry
Textile industrial chemistry, textile engineering and apparel industry
Nuclear chemistry in industry
Production of food and beverages
Adhesive industrial chemistry
Industrial processes, white biotechnology and green chemistry
Industrial materials and applications
Chemistry in plastic, glass and leather industries
