

CALL FOR PAPERS

ICAIT 2020
Mar 19-20, 2020
Dubai, UAE

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAIT 2020 : International Conference on Agriculture Irrigation Technology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Agriculture Irrigation Technology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Agriculture irrigation technology
New irrigation technologies in agriculture
Impact of irrigation technology on productivity and sustainability
Benefits of modern irrigation technology
Precision irrigation for sustainable crop production
Irrigation technology for improving water use efficiency
Irrigation for poor quality water application
The economy and national policies of irrigation
New technologies for more accurate determination of crop water requirements
Models as management tools for water management under irrigation
Agricultural irrigation
Agricultural irrigation systems
Irrigation and drainage

Agricultural structures and irrigation
Irrigation canals and flumes
Irrigation districts
Irrigation engineering
Irrigation water requirement
Agricultural irrigation equipment
Surface irrigation
Localized irrigation
Subsurface irrigation
Perennial irrigation
Intermittent-flow irrigation
Continuous flow irrigation
Farm irrigation efficiency
