

CALL FOR PAPERS

ICAPPP 2020
Mar 19-20, 2020
Dubai, UAE

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAPPP 2020 : International Conference on Advances in Petrochemistry and Petrochemical Plants is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advances in Petrochemistry and Petrochemical Plants. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Petrochemistry and chemical engineering
Petrochemical engineering
Renewable energy and feedstock
New methods and technologies in petrochemistry and oil-refining
Processes for bulk and fine chemicals
Modeling and simulation
New concepts and innovations
Chemical reaction engineering and its applications
Macro and nano science technology
Sources, ecological problems and management of petrochemistry
Energy, environment and water nexus
Chemical applications in producing oil and gas
Fuel chemistry, technology and processing

Petroleum geology
Drilling and well completions challenges
Upstream and downstream processes
Chemical health and safety
Renewable energy and feedstock
Coal and gas
Colloid and surface chemistry
Filtration and separation
Fluid flow and transfer process
Process chemistry and technology
Chemical reaction engineering
Applied catalysis
Corrosion issues
