

CALL FOR PAPERS

ICASDPT 2020
Mar 19-20, 2020
Dubai, UAE

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICASDPT 2020 : International Conference on Applications of Seismic Data Processing Technologies is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Applications of Seismic Data Processing Technologies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Seismic data processing technologies
Seismic data processing and engineering applications
Advances in seismic data processing
Recent innovations in seismic data processing
Seismic data acquisition, processing, and interpretation
Analysis of seismic data
Seismic resolution and fidelity
Digital filters

Seismic velocity analysis
Interpretation of seismic data
Interpretation algorithms and systems
Seismic data quality requirements
Technological advances in seismic acquisition
Seismic surveying
2D and 3D seismic reflection data processing
