

CALL FOR PAPERS

ICBCDS 2020
Mar 19-20, 2020
Dubai, UAE

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBCDS 2020 : International Conference on Biomedical Circuits, Devices and Systems is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Biomedical Circuits, Devices and Systems. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Biomedical Circuits, Devices and Systems
Bio-inspired and Neuromorphic Circuits and Systems
Bio-medical Sensors and Interfacing Circuits
Biomedical Imaging Technologies and Image Processing
Electronics for Brain Science
Genomics and Systems Biology
Implantable and Wearable Devices and Systems
Internet of Things (IoT) for Healthcare

Innovative Circuits for Medical Applications
Lab-on-Chip/BioMEMS/Point-of care Devices
Medical Information Systems and Bioinformatics
Rehabilitation and Assistive Technologies
Signal Processing Systems for Bio-medical Applications
Therapeutic Devices and Closed-loop Systems
Wireless and Energy Harvesting/Scavenging Technology
