

CALL FOR PAPERS

ICBMSOC 2020
Mar 19-20, 2020
Dubai, UAE

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBMSOC 2020 : International Conference on Biomimetic Material Synthesis and Oxidation Catalysis is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Biomimetic Material Synthesis and Oxidation Catalysis. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Biomimetic material synthesis and materials chemistry
Biomimetic approach in inorganic material chemistry
Nanoscale synthesis
Oxidation catalysis
Design of biomimetic materials

Biomimetic strategies and materials processing
Biomimetic mineralization
Biomimetic materials for biomedical applications
Biomimetic materials and transport systems
Recent advances in biomimetic material synthesis
