

CALL FOR PAPERS

ICCBWS 2020
Mar 19-20, 2020
Dubai, UAE

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCBWS 2020 : International Conference on Chemistry and Biology of Water Safety is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Chemistry and Biology of Water Safety. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Water safety
Water safety techniques and technologies
Recent technologies for water safety
Biotechnology and water safety
Chemical engineering for water safety
Food and water microbiology

Biology and chemistry of water safety
Rules and regulations for water safety
Water safety planning for urban water utilities
Safe water treatment and storage in the home
Safe water treatment and storage in industrial setting
Water safety for children and young people
