

CALL FOR PAPERS

ICCECNSA 2020
Mar 19-20, 2020
Dubai, UAE

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCECNSA 2020 : International Conference on Computer Engineering, Computer Networks and Software Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Computer Engineering, Computer Networks and Software Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Computer engineering
Electrical engineering and computer science
Computer hardware and software
Hardware platforms
Software applications
Software design
Writing software and firmware
Hardware-software integration
Hardware and software aspects
Types of hardware
Design hardware, software, firmware and manage all forms of computer systems
Computer networks
Coding, cryptography, and information protection

Communications and wireless networks
Compilers and operating systems
Computer systems: architecture, parallel processing, and dependability
Computer vision and robotics
Embedded systems
Integrated circuits, vlsi design, testing and cad
Signal, image and speech processing
Experimental computer architectures
Computationally-intensive applications
Physics, materials science, and engineering systems
Implementation for electrical, biomedical, and defense-related fields
Energy-efficient computing
Computer architecture and design
