

CALL FOR PAPERS

ICCHD 2020
Mar 19-20, 2020
Dubai, UAE

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCHD 2020 : International Conference on Climatology and Hydrology of Droughts is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Climatology and Hydrology of Droughts. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Climatology and hydrology of droughts: past, present and future
Water scarcity and droughts
Drought planning and management
Risk management approach
Drought impacts in different sectors
Drought risk perception and communication
From preparing drought data to communicating drought
Drought monitoring tools and drought data
Water resources and environment research
Drought policies and plans

Cost and benefits of waste management options
Types of drought
Causes of drought
Precipitation deficiency
Erosion and human activities
Climatic changes
Protection, mitigation and relief
Waste management
Soil-Waste Interaction
