

# CALL FOR PAPERS

**ICCPCC 2020**  
**Mar 19-20, 2020**  
**Dubai, UAE**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCPCC 2020 : International Conference on Coastal Processes and Climate Change is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Coastal Processes and Climate Change. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Coastal processes  
Coastal landforms  
Wave climate  
Climate  
Wind and waves  
Evidence of the power of wind  
Features of waves  
Coastal processes and management  
Process-based and predictive coastal erosion modeling  
Impact of climate change on storm surge, erosion, water quality and geomorphic change  
Monitoring of coastal change  
Instrumentation systems for monitoring coastal meteorology and hydrodynamics  
Beach morphology

Coastal geomorphology  
Geology  
Marine organisms  
Human activity  
Coastal erosion processes  
Erosion and accretion  
Swash and backwash  
Abrasion  
Attrition  
Corrosion / solution  
Hydraulic pressure  
Weathering  
Bioerosion
