

CALL FOR PAPERS

ICCPCC 2020
Mar 19-20, 2020
Dubai, UAE

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCPCC 2020 : International Conference on Coastal Processes and Climate Change is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Coastal Processes and Climate Change. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Coastal processes	Coastal geomorphology
Coastal landforms	Geology
Wave climate	Marine organisms
Climate	Human activity
Wind and waves	Coastal erosion processes
Evidence of the power of wind	Erosion and accretion
Features of waves	Swash and backwash
Coastal processes and management	Abrasion
Process-based and predictive coastal erosion modeling	Attrition
Impact of climate change on storm surge, erosion, water quality and geomorphic change	Corrosion / solution
Monitoring of coastal change	Hydraulic pressure
Instrumentation systems for monitoring coastal meteorology and hydrodynamics	Weathering
Beach morphology	Bioerosion
