

# CALL FOR PAPERS

**ICEEMO 2020**  
**Mar 19-20, 2020**  
**Dubai, UAE**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEEMO 2020 : International Conference on Ecology and Evolution of Marine Organisms is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Ecology and Evolution of Marine Organisms. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Biological oceanography	Observations, laboratory
Ecology of the oceans	experiments, spatial analysis and
Activities and distributions of	theoretical models
marine organisms	Numbers of individuals of various
Variety of organisms from microbial	species
communities to large marine	The concentration of a nutrient
mega-fauna	Invertebrates
Tropical to polar oceans	Fungi
Land-ocean interface	Vertebrates
Deep-ocean	Fish
Evaluation	Dep-sea corals
Ecology, evolution, population	Marine invertebrates
genetics, and conservation of	Deep-sea whale falls
marine organisms	The distribution of a gene
Marine biodiversity	Geological oceanography
Marine mammals	Chemical oceanography
Marine microbial ecology	
Biogeochemical modeling
