

CALL FOR PAPERS

ICIDWP 2020
Mar 19-20, 2020
Dubai, UAE

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICIDWP 2020 : International Conference on Impact of Disease on Wildlife Populations is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Impact of Disease on Wildlife Populations. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Wildlife populations	Food and energy demand
Global wildlife populations	Conservation of wildlife
Management of animal populations	populations
Wildlife population ecology	Wildlife population health
Wildlife population assessment	specialty
Wildlife population control	Wildlife population growth rates
techniques	Demography and genetics
Estimating wildlife populations	Specific groups of wildlife
Sampling methods	Human dimensions
Models for management of wildlife	Policy and economics
populations	Total counts
Population density	Incomplete counts
Hunting or trapping seasons	Indirect counts
The impact of disease on wildlife	Mark-recapture methods
populations	Advantages and disadvantages
Wildlife demography and analysis
