

# CALL FOR PAPERS

**ICMCE 2020**  
**Mar 19-20, 2020**  
**Dubai, UAE**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMCE 2020 : International Conference on Materials in Civil Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Materials in Civil Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Civil engineering materials  
Advances in civil engineering materials  
Strength of materials  
Failure of real construction materials  
Thermal properties of materials  
Pressure and pressure dynamics  
Electrical properties of materials  
Chemistry of construction materials  
Properties of fluids in solids  
Transport of fluids in solids  
Transport of ions in fluids  
Ionising radiation  
Variability and statistics

Use of test results  
Specifications and standards  
Testing construction materials  
Cement and concrete  
Cements and cement replacement materials  
Aggregates for concrete and mortar  
Hydration of cement  
Concrete mix design  
Testing wet and hardened concrete  
Creep, shrinkage, and cracking of concrete  
Admixtures for concrete  
Durability of concrete structures  
Production of durable concrete
