

# CALL FOR PAPERS

**ICMSSM 2020**  
**Mar 19-20, 2020**  
**Dubai, UAE**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMSSM 2020 : International Conference on Mechanical Structures and Smart Materials is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Mechanical Structures and Smart Materials. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Material Science and Engineering  
Non-ferrous Metal material  
Composites  
Micro / Nano Materials  
New Functional Materials  
Smart/Intelligent  
Materials/Intelligent Systems  
Physics and Numerical Simulation of  
Materials process  
Materials Forming  
Modeling, Analysis and Simulation  
of Manufacturing Processes  
Hydrogen Storage Materials  
Fuel Cells and Energy Materials  
Related Applied Technology.  
Green Materials  
Materials Modeling, Simulation and  
Characterization

Materials and Reagents for  
treatment of water, wastewater and  
excess sludge  
Materials for Energy Conversion and  
Storage  
Nano-scale and Amorphous  
Materials  
Materials for Corrosion Control and  
Scale Inhibition  
Materials Processing Technology  
Computer Aided Material Design  
Materials Testing and Evaluation  
Materials processing Material  
Modeling, analysis and simulation  
of production processes  
Microwave treatment  
Material Forming  
Surface Engineering / paint
