

# CALL FOR PAPERS

**ICNGIC 2020**  
**Mar 19-20, 2020**  
**Dubai, UAE**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICNGIC 2020 : International Conference on Next-Generation Internet and Communication is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Next-Generation Internet and Communication. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Adaptive Integration of Evolving Data Sources	Future Internet as a Techno-Social System
Autonomic Networking	Geographic Routing and Location-Aware Services
Clean-Slate/Dirty-Slate Internet Architectures	Greening Networks and Green Computing
Co-Evolution of Internet and Society	Hidden Web Search and Crawling
Complex Techno-Social Networks	High Speed Packet Forwarding/ Packet Classification
Content-Based Networking	Information Gathering Support for Knowledge-Intensive Enterprises
Context-Aware and Context Recognition	Intelligent Web Services
Converged Networks and Applications	Internet Architecture and Design
Data Centers and Cloud Computing	Internet Protocols
Data-Oriented Architectures and Information-Centric Networking	Address Management
Delay Tolerant Networking	Internet Topology and Modelling
Economics Aspects of Future Internet	Location Services
Evolution of the IP Network Architecture	The Internet of Things
