

CALL FOR PAPERS

ICP 2020
Mar 19-20, 2020
Dubai, UAE

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICP 2020 : International Conference on Postharvest is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Postharvest. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Postharvest technology and biology
Effects of preharvest management on postharvest quality
Maturity assessment and prediction
Product quality, safety, control
Postharvest pathology, disease control, treatments, value-addition
Food traceability, identity preservation: policy, legislation, enabling technologies
ICT in postharvest management
Education/training methods for sustainable postharvest development

Innovative packaging and storage technology: controlled/modified atmospheres
Instrumentation/control systems, postharvest laboratory standards/accreditation
Agro-processing, incl. minimal processing, handling systems, damage reduction
Assessment/reduction of postharvest losses
Cool-chain management, drying technology, kinetics
Agri-food trade and market access, functional foods and human health
Impacts/benefits of postharvest research, emerging/novel technologies
Postharvest project design/management/evaluation, case studies, best practice
