

CALL FOR PAPERS

ICPSPR 2020
Mar 19-20, 2020
Dubai, UAE

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICPSPR 2020 : International Conference on Power Systems and Protection is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Power Systems and Protection. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

| | |
|-----------------------------|-------------------------------------|
| Power engineering | Utilization |
| Power systems engineering | Electricity |
| Power systems | Thermal power plants |
| Power system protection | Electrical machines |
| Power generation | High voltage technology |
| Power electronics | Power electronics |
| Power flows | Basics of electric power |
| Electric power | Power transmission systems |
| Power station | Energy storage |
| Electric power transmission | Electrical devices |
| Power transmission | Generators, motors and transformers |
| Energy economics | Electric railway networks |
| Power distribution | Energy systems and energy economy |
