

CALL FOR PAPERS

ICSAE 2020
Mar 19-20, 2020
Dubai, UAE

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSAE 2020 : International Conference on Structural and Acoustical Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Structural and Acoustical Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Structural and acoustical engineering
Architecture, structures and acoustic
Architecture and structural design
Architecture, urban planning and design
Building envelopes and facades
Comprehension of complex forms
Computer and experimental methods
Concept architectural buildings and futuristic structures
Concrete and masonry structures
Emerging technologies
Glass structures

Innovative architectural and structural design
Landscape architecture and urban planning
Lightweight and membrane structures
Special structures
Steel and composite structures
Structural design challenges
Tall buildings
The tectonic of architectural solutions
The use of new materials
Timber structures
Urban and regional planning
