

CALL FOR PAPERS

ICSCIT 2020
Mar 19-20, 2020
Dubai, UAE

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSCIT 2020 : International Conference on Sustainable Chemistry and Industrial Technologies is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Sustainable Chemistry and Industrial Technologies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Objectives of sustainable chemistry
Basic Principles and New Trends in Green Chemistry
Green Chemistry in Industry
Sub- and Supercritical Fluid Technology
Green Extraction Techniques
Green Solvents and Catalysis
Separations and Analysis
Green Manufacturing and Engineering
Energy Efficient Manufacturing
Sustainable Building
Biobased Materials
Bio-inspired Materials
Clean Polymerization Methodologies

Biomass and Wastes as Resources
Conversion of Vegetable Oils, Derivatives and By-products
Biomass Resources, Conversion Technologies
Bio-based Chemicals and Reactions
Recycling for Green and Sustainable Chemistry
Biodiversity, Sustainability
Biomass Policies, Markets
Solar Technologies and New Trends
Bioenergy, Wind Energy and Geothermal Energy
Hybrid Systems
Renewable Storage Technologies
Life-Cycle Assessment
Environmental and Ethical Assessments
