

CALL FOR PAPERS

ICWCLS 2020
Mar 19-20, 2020
Dubai, UAE

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICWCLS 2020 : International Conference on Wave Climate Simulations is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Wave Climate Simulations. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Wave climate	Climate assessment
Analysis of wave climate	Coastal development
Wave climate trends and variability	Oceanweather
Long-term wave hindcasts	Global spectral ocean wave model
Hindcast methodology	Hydrodynamic model
Wave climate simulations	Wave hindcast model
Statistics	Ocean wave climate
Tropical cyclones	Ocean wave variability
Continuous wind fields	Weather forecasts reanalysis
Tropical storms hindcast	Waves and storms
Continuous hindcast	Storm generated currents
Implications of climate variability	Water level anomalies
Wave hindcasts	Monthly, seasonal and annual time scales
