

# CALL FOR PAPERS

**ICWSDM 2020**  
**Mar 19-20, 2020**  
**Dubai, UAE**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICWSDM 2020 : International Conference on Water Scarcity and Drought Management is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Water Scarcity and Drought Management. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Climatology and hydrology of droughts: past, present and future  
Water scarcity and droughts  
Drought planning and management  
Risk management approach  
Drought impacts in different sectors  
Drought risk perception and communication  
From preparing drought data to communicating drought  
Drought monitoring tools and drought data  
Water resources and environment research  
Drought policies and plans

Cost and benefits of waste management options  
Types of drought  
Causes of drought  
Precipitation deficiency  
Erosion and human activities  
Climatic changes  
Protection, mitigation and relief  
Waste management  
Soil-Waste Interaction
