

CALL FOR PAPERS

ICAF 2020
Mar 19-20, 2020
Istanbul, Turkey

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAF 2020 : International Conference on Advanced Fibers is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advanced Fibers. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Advanced fibers	Fibers and polymers for medical applications
Advanced fiber technology	Fibers and polymers for energy applications
Advanced fibers and composites	Natural fibers and biomimetic polymers
Advanced fiber-reinforced polymers	Low dimensional materials
Advanced fibers and polymer materials	Multi-functional and multi-material fibers
High-performance fibers and composites	Novel fibers
Chemistry and physics in fibers and textiles	Synthetic fibers
Nano-technologies in fibers and polymers	Shield composites
Smart fibers, textile and wearable intelligent device	Ballistic protection materials
Environmentally friendly fibers and polymers	Industrial fibers
