

# CALL FOR PAPERS

**ICCEWS 2020**  
**Mar 19-20, 2020**  
**Istanbul, Turkey**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCEWS 2020 : International Conference on Chemical Engineering for Water Safety is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Chemical Engineering for Water Safety. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Water safety  
Water safety techniques and technologies  
Biotechnology and water safety  
Chemical engineering for water safety  
Water microbiology  
Biology and chemistry of water safety

Rules and regulations for water safety  
Water safety planning for urban water utilities  
Safe water treatment and storage in the home  
Safe water treatment and storage in industrial setting  
Water safety for children and young people
