

# CALL FOR PAPERS

**ICCSMT 2020**  
**Mar 19-20, 2020**  
**Istanbul, Turkey**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCSMT 2020 : International Conference on Cognitive Science and Machine Translation is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Cognitive Science and Machine Translation. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Cognitive approaches to machine translation problems  
Cognitive aspects of machine translation  
Cognitive issues in natural language processing  
Emergence of linguistic and cognitive features and structures  
Knowledge translation and innovation

Learning social interactions  
Machine translation and cognitive linguistics  
Machine translation and cognitive science  
Psycholinguistic and cognitive inquiries into translation and interpreting  
Translation within and between languages: learning to translate
