

# CALL FOR PAPERS

**ICEPES 2020**  
**Mar 19-20, 2020**  
**Istanbul, Turkey**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEPES 2020 : International Conference on Electrical Power and Energy Systems is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Electrical Power and Energy Systems. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Generation Systems  
Protective Relaying  
Modeling and Simulation of Power Systems  
Load Modeling, Forecasting and Management  
Power Quality and Grounding  
Safety, Maintenance and Operation  
Distribution System Planning and Reliability  
Flexible AC Transmission Systems  
Distributed Generation  
Distributed Power Systems  
Power Line Communications  
Power Flow Analysis

Power Electronics, Systems and Applications  
Soft switching converters  
Multilevel converters  
Matrix converters  
Emerging topologies  
Power Converters Modeling, Simulation and Control  
Power Factor Correctors  
EMI and over-voltage protection  
Active Filters and Harmonics  
Power Supplies  
Power Electronics Components and Packaging  
Reliability and Fault Tolerance
