

CALL FOR PAPERS

ICESSA 2020
Mar 19-20, 2020
Istanbul, Turkey

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICESSA 2020 : International Conference on Engineering Structures and Structural Analysis is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Engineering Structures and Structural Analysis. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Analysis of engineering structures
Statically determinate structures
Kinematics of structures
Structural analysis
Deformations
Stiffness and flexibility

The force method
The displacement method
The finite element method
Inelastic material behavior in structures
Bridge analysis
Computer applications
