

CALL FOR PAPERS

ICFFOMNC 2020
Mar 19-20, 2020
Istanbul, Turkey

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICFFOMNC 2020 : International Conference on Forest Floor Organic Matter and Nutrient Content is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Forest Floor Organic Matter and Nutrient Content. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Forest floor
Biogeochemical cycle
Forest ecosystem
Seasonal and topographic patterns
of forest floor
Changes in forest floor organic
matter and nutrient content
Carbon cycling in a mixed deciduous
forest floor
Forest floor dynamics
Forest floor components

Spatial changes in forest floor
Forest floor soils
Moisture in the forest floor
Moisture cycles of the forest floor
organic layer
Rain forest nutrient cycling and
productivity on forest floor
New techniques to measure forest
floor interception
Estimation of interception capacity
of the forest floor
Forest floor vegetation
