

CALL FOR PAPERS

ICSN 2020
Mar 19-20, 2020
Istanbul, Turkey

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSN 2020 : International Conference on Satellite Navigation is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Satellite Navigation. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Satellite navigation
Autonomous geo-spatial positioning
Global navigation satellite system
System capabilities
Classification
History and theory
Civil and military uses
Global satellite navigation systems
Operational
Global positioning system
GPS signal coding
The correlation process
GPS receiver operations

User range errors and geometric dilution of precision
Ionospheric delay errors
Dual frequency correction technique
The ionospheric delay model
Multipath reflection errors
Differential GPS
GLONASS
Galileo
In Development
BeiDou
Comparison of systems
Regional satellite navigation systems
BeiDou-1
