

CALL FOR PAPERS

ICVBS 2020
Mar 19-20, 2020
Istanbul, Turkey

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICVBS 2020 : International Conference on Veterinary and Biomedical Sciences is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Veterinary and Biomedical Sciences. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Veterinary biomedical sciences	
Biomedical engineering for veterinary medicine	
Veterinary biomedical studies	
Cellular and molecular activities of animal systems	
Veterinary medicine and biomedical sciences	
Algorithms, modeling and simulation of bio-sets	
Bioengineering applications for animals with disabilities	
Bio-imaging and bioinformatics for veterinary medicine	
Biological data mining and visualization	
Biological systems and models	
Biomedical and biological sensors	
Biomedical data engineering	
Biomedical image processing and analysis	
	Biomedical intelligence and clinical data analysis
	Biomedical signal/image analysis
	Biomedical text mining and ontologies
	Bio-molecular and phylogenetic databases
	Cell engineering
	Computational modeling and data integration
	Computational systems biology
	Computer assisted intervention systems
	Engineering models in bio-medicine
	Functional genomics, proteomics
	Gene expression analysis
	Genes and their regulation
	Medical robotics
