

# CALL FOR PAPERS

**ICWCR 2020**  
**Mar 19-20, 2020**  
**Istanbul, Turkey**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICWCR 2020 : International Conference on Water Cycle and Reclamation is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Water Cycle and Reclamation. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Environmental engineering  
Water supply and treatment  
Wastewater treatment  
Wastewater treatment technologies  
Agricultural wastewater treatment plants  
Industrial wastewater  
Industrial wastewater treatment plants  
Water reclamation  
Water cycle  
Phase separation  
Sedimentation, filtration and oxidation  
Wastewater treatment plants  
Tertiary treatment

Wastewater management systems  
Leachate treatment plants  
Solid waste management  
Environmental impact assessment and mitigation  
Air pollution management  
Environmental protection agency  
Protecting the environment by reducing waste and pollution  
Improving environmental conditions  
Technologies and processes that control pollution  
Prevent, control and remediate environmental hazards  
Waste treatment  
Site remediation  
Pollution control technology
