

CALL FOR PAPERS

ICWUIA 2020
Mar 19-20, 2020
Istanbul, Turkey

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICWUIA 2020 : International Conference on Wildland-Urban Interface Assessment is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Wildland-Urban Interface Assessment. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Wildland-urban interface	Bridge load limits
Wildland/urban interface concerns	Wooden construction and wood shake roofs
Human influences on forest ecosystems	Structure situations to avoid
Wildland-urban interface assessment	Downed power lines
Mapping the wildland-urban interface	Hazardous materials
Wildfire hazards in the wildland urban interface	Fuels close to structures
Wildlands and risk of wildfires	Fuel treatments at the wildland-urban interface
Wildland-urban interface building codes	Inadequate water supply
Home ignitability in the wildland-urban interface	Structures in extreme terrain
Distribution of structures	Extreme fire behavior hazards
