The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAFT 2020 : International Conference on Advances in Flight Technologies is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advances in Flight Technologies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Flight technology
Aviation flight technology
Flight vehicle aerodynamics
Flight vehicle classification
Airship (aerostatic craft)
Airplane (aerodynamic craft)
Fixed wing airplane
Rotary wing airplane
Mixed fixed-rotary airplane
Surface-effect craft
Rocket
Manned aerial vehicle
Unmanned aerial vehicle

Flight dynamics and control
Engineering analysis of flight vehicles
Flight vehicles
Flight vehicle performance
Flight software
Aerodynamic control
Flight test
Aircraft structures
Electrotechnology
Outer space
Rocket science
Atmospheric pressure and temperature
Aerodynamics
