

CALL FOR PAPERS

ICCBDM 2020
Mar 12-13, 2020
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCBDM 2020 : International Conference on Cognitive Biases in Decision Making is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Cognitive Biases in Decision Making. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Cognitive biases	Self-serving bias
Cognitive bias in animals	Belief bias
Cognitive bias mitigation	Framing
Cognitive bias modification	Hindsight bias
Human judgment and decision-making	Regressive conservatism
Types of cognitive biases	The belief revision
Information-processing shortcuts	Illusory correlations
Noisy information processing	Illusory superiority
The brain's limited information processing capacity	Worse-than-average effect
Emotional and moral motivations	Subadditivity effect
Social influence	Exaggerated expectation
Fundamental attribution error	Overconfidence
Confirmation bias	The hard-easy effect
