

CALL FOR PAPERS

ICCSE 2020
Mar 12-13, 2020
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCSE 2020 : International Conference on Computer and Software Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Computer and Software Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Computer Engineering
Computational Intelligence
Artificial Intelligence and Pattern
Recognition
Neural Networks and Genetic
Algorithms
Expert Systems, and Support Vector
Machines
Machine Intelligence and
Information Fusion
Machine Learning and Knowledge
Discovery
Multimedia and Graphics
Encoding and Decoding
Transmission Scheme over Networks
Virtual Reality, 3-D Imaging and
Rendering Algorithm
Software and Hardware
Implementation
Computer Vision and Image
Processing

Computer Graphics and
Visualization
Information Security
Protocols for Cryptography
Mathematical Foundation
Software and Hardware
Implementation
Security Applications and
Management
Software Engineering
Computer and Network Systems
Distributed and Parallel Computing
Grid Computing
Database Systems and Web-based
Services
IT for Anti-Terrorist Technology
Innovations
