

CALL FOR PAPERS

ICQCQBD 2020
Mar 12-13, 2020
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICQCQBD 2020 : International Conference on Quantum Cognition and Quantum Brain Dynamics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Quantum Cognition and Quantum Brain Dynamics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Quantum cognition
Quantum-like brain
Quantum information processing
Quantum cognition and decision theories
Human cognition
Quantum models of cognition and decision
Concept theory and natural language processing
Quantum-like models of information processing
Decision making

Human probability judgments
Knowledge representation
Human memory
Semantic analysis and information retrieval
Human perception
Gestalt perception
Quantum-like models of cognition in economics and finance
Application of theory of open quantum systems to decision making and cell's cognition
