

CALL FOR PAPERS

ICSDE 2020
Mar 12-13, 2020
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSDE 2020 : International Conference on Software Design Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Software Design Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

AI and Knowledge based software engineering
Artificial Intelligence
Aspect-orientation and feature interaction
Business Process Reengineering & Science
Communication Systems and Networks
Component-Based Software Engineering
Computer & Software Engineering
Computer Animation and Design Contents
Computer Game Development, User Modelling and Management
Computer supported cooperative work
Cost Modeling and Analysis
Data Mining and Knowledge Recovery
Design & Process Engineering & Science

Design Patterns and Frameworks
Distributed Intelligent Systems
Economic and Financial Systems
Empirical software engineering
End user software engineering
Engineering of distributed/parallel SW systems
Engineering of embedded and real-time software
Engineering secure software
Formal Methods and Tools
Healthcare Engineering
Human-Computer Interaction
Information Management Systems, MIS
Information Systems Engineering
