

CALL FOR PAPERS

ICSMR 2020
Mar 12-13, 2020
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSMR 2020 : International Conference on Spintronics Materials and Research is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Spintronics Materials and Research. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Spintronics materials

Magnetoelectronics and spintronics

Emerging materials for spintronic devices

Spintronics materials and devices

Spintronics: materials, applications and devices

Spintronics for next generation innovative devices

Multiferroic spintronic materials

Nanomagnetism and spintronics

Spin-orbit coupling

Quantum spin Hall Effect

Interfaces of magnetic and other materials

Magnetism in low-dimensional systems

Multiferroics

Spin-injection and transport

Strongly correlated systems

Fundamental of magnetism

Metal-based devices

Spintronic-logic devices

Semiconductor-based spintronic devices

Ferromagnetic semiconductors and heterostructures

Spintronics with ferrimagnetic and antiferromagnetic materials

Magnetic dynamics with topological materials

Spintronics with 2D materials
