

CALL FOR PAPERS

ICTPPT 2020
Mar 12-13, 2020
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICTPPT 2020 : International Conference on Topological Phases and Phase Transitions is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Topological Phases and Phase Transitions. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Topological phase transitions
Topological phases
Topological classification of
strongly interacting systems
Topological phase transitions
Experimental realization of
topological orders

Condensed matter
Quantum information
Quantum materials and simulations
High energy physics and string
theory
