

CALL FOR PAPERS

ICADEA 2020
Mar 26-27, 2020
Madrid, Spain

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICADEA 2020 : International Conference on Advances in Dam Engineering and Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advances in Dam Engineering and Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Concrete and Masonry Dams
Embankment Dams
Appurtenant Works
Tailing Dams
Environmental Issues
Finance and Economic Aspects
Roller Compacted Concrete Dams
Concrete Face Rockfill Dams
Methods of Analysis and Design of Dams
Dam Foundation
Seismic Analysis
Stability of Dams and Slopes
Dam Monitoring and Instrumentation

Safety Assessment
Operation and Maintenance
Rehabilitation and Dam Heightening
Concrete Swelling Processes
Risk Assessment
Warning Systems
Geomembranes for dams
Dam Management Systems
Design Innovation
Modelling and Testing
New Materials for Dams
Small Dams
