

CALL FOR PAPERS

ICARA 2020
Mar 26-27, 2020
Madrid, Spain

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICARA 2020 : International Conference on Autonomous Robots and Agents is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Autonomous Robots and Agents. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Intelligent Control
DNA Computing for Autonomous Agents
Biorobotics, Biomechanics
Implantable Sensors for Robotic Applications
Artificial Intelligence in Biosystems
Autonomous Systems
Multi-Agent Collaborative Systems (MACS)
Robotics, Humanoids
Smart Sensors and Sensor Fusion
Cooperative Robotics
Robot Soccer Systems
Entertainment Robotics
Human Robot Interface

Distributed Intelligent Control Systems
Real Time Supervisory Control
Embedded Systems
Educational Technology
Fuzzy Systems, Neuro-Fuzzy Systems
Biped and Humanoid Robots
Rough Sets, Data Mining
Navigation and Path Planning
Genetic Algorithm (GA)
Evolutionary Computation (EC)
Distributed Evolutionary Algorithms
Real Time Evolutionary Computation
Evolutionary Systems and Algorithms
