

CALL FOR PAPERS

ICBPE 2020
Mar 26-27, 2020
Madrid, Spain

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBPE 2020 : International Conference on Bioenvironmental Polymer Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Bioenvironmental Polymer Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Bioenvironmental Polymer Engineering
Agriculture to Biofuel Driven Value Added Feedstocks
Analytical Techniques in Thermal and Rheological Analysis
Applications in Construction, Automotive and Packaging
Biobased Products that Work
Biobased Solutions for Transportation
Bioenvironmental Policy
Biofuels and Environmental Impact
Biopolymers for Dental and Medical Applications
Biopolymers, Nanocomposites, Short fiber and Woven composites

Bioproducts for Durable Applications
Bioremediation
Challenges in Biomass production for Value Added Production
Green Buildings : Where Aesthetics and Function Meet
Environmental Degradation and Stability Solutions
Enzymatic Catalysis and Synthetic Approaches
Enzymatic Catalysis of Biobased Feedstocks
Nanocellulose Composites
Synthesis of Bioproducts from Plant Oils
