

CALL FOR PAPERS

ICBS 2020
Mar 26-27, 2020
Madrid, Spain

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBS 2020 : International Conference on Biological Sciences is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Biological Sciences. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Microbiology	Cell and tissue engineering
Agricultural Biotechnology	Control and system engineering for food industry
Animal biotechnology	Drug screening and pharmaceutical synthesis
Application of artificial intelligence in food engineering research and in industry	Electronics and instrumentation in food industry
Artificial organs and implants	Environmental Biotechnology
Biocatalysis, organocatalysis and nanobiotechnology	Enzyme Engineering
Bioinformatics	Food Biotechnology
Biological and biomedical imaging	Food microstructure development and characterization
Biomedical Computational drug discovery	Food properties including thermal, chemical and mechanical properties
Bio-MEMS and microbioreactors	Gene expression databases
Biomimetic and self-assembled materials	Gene regulation
Bioremediation of polluted sites	Heat, mass transfer and fluid flow in food processing
Biosensors and molecular diagnostics	Industrial Biotechnology
