

# CALL FOR PAPERS

**ICCMDA 2020**  
**Mar 26-27, 2020**  
**Madrid, Spain**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCMDA 2020 : International Conference on Content Management and Data Architecture is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Content Management and Data Architecture. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Content management systems  
Electronic marketing and  
networking  
Digital collections management  
system software  
Improving content management with  
content strategy  
Modeling patterns  
Information control nets

Content management issues in  
information systems planning and  
design  
Information management in the  
cloud  
Infrastructures and networks for  
information management  
Improving usability of information  
Organizing and labelling contents  
Data architecture
