

# CALL FOR PAPERS

**ICCSMPDPA 2020**  
**Mar 26-27, 2020**  
**Madrid, Spain**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCSMPDPA 2020 : International Conference on Computer Systems, Modern Processor Design and Performance Analysis is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Computer Systems, Modern Processor Design and Performance Analysis. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Computer engineering  
Electrical engineering and computer science  
Processor design  
Details  
Micro-architectural concepts  
Performance analysis and benchmarking  
Markets  
General purpose computing  
High-end processor economics  
Scientific computing  
Embedded design  
Embedded processor economics

Research and educational CPU design  
Soft microprocessor cores  
Computer hardware  
Microprocessor  
Microarchitecture  
Microprocessors  
Microsystems  
Structure  
Microprocessor technology  
Embedded microprocessors  
Optoelectronic microprocessors
