

# CALL FOR PAPERS

**ICEAET 2020**  
**Mar 26-27, 2020**  
**Madrid, Spain**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEAET 2020 : International Conference on Electronics, Analog Electronics and Transmission is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Electronics, Analog Electronics and Transmission. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Electronics  
Electric energy  
Electrical circuits  
Analogue electronics  
Design difficulty  
Analog transmission  
Proportional relationship between a signal and a voltage  
Analog recording  
Analog signals  
Analog chip  
Analog verification  
Radiation detection  
Modular synthesis

Inherent noise  
Analog vs digital electronics  
Precision  
Analog data  
Analog comparator  
Analog protection system  
Active electrical components  
Passive electrical components  
Electronic devices  
Information processing  
Telecommunication  
Signal processing  
Branches of electronics
